**Children can make the world a better place**

Isabella Rivera is only 11 years old. She is little but what she does for street animals is big. There are a lot of cats and dogs in her town that are hungry and thin. Isabella starts to think "What can I do for them?". Then, she has an idea! It's a club called "Kids for Animals". In this club, children in her community meet at weekends. They go from house to house and ask for money. After that, they buy pet food with the money they collect. "It is very important to help animals. We share the earth with them" Isabella says. People from the town feel sad for the animals, so they are proud of the children.

This is the 12-year old Ella Casano and her "Medi Teddy". Ella designs *Medi Teddy* for kids in hospital. She is not always healthy and Ella sometimes has to stay in hospital. So, when she sees other children in hospital, Ella knows how they feel and she wants to help. She has a webpage. People can visit this webpage and send Ella money online. Ella saves £20,000! Now, she can make many, many *Medi Teddy* bears and give them to the ill children in hospitals.

Sidney, also 11 years old, loves to read. But a lot of children today do not. "They always want to watch videos or play games on their phones and tablets" Sidney says. He also spends time on the Internet, of course, but not all the time. "It's not healthy for their eyes, or their bodies." Sidney thinks reading is a better activity and it can make children creative. Hi, I am Camila. I am from Spain, but my family and I live in England. I want to talk about different schools here in England. My Italian friend, Suzie, goes to a school called Riverview Special School. She plays the guitar and sings. She says the school is great! Sometimes at lunchtime there are concerts and students can sing, play music, and dance. They sometimes have to go to school at the weekend, too, but she doesn't mind.

My school, Trinity Academy, is not the same. My twin Katia goes here, too. In our school, we usually have to say Mr and Mrs when we want to talk to our teachers, but in Suzie's school, students call their teachers by their first names. They also don't wear school uniform, don't have tests and don't do a lot of homework but they have to practise the guitar everyday from Monday to Friday. In our school we always wear uniform, have lots of homework and we have to study for tests. I think our school is OK but my twin says it is not cool.

I know Suzie's school has some very popular old students. Adele, for example! These people sometimes visit my friend's school and sing their songs, talk to the students and the students take pictures with the singers. My friend, Suzie, also wants to be a great singer like Adele one day and she wants to travel to the United States. And I want to study in her school!
